Dear Counsellors:

EPA understands the parties participated in the convening process in good faith and made themselves available to the convenor. The convening process is now complete. In order to allow time for EPA to consider the information received from the convenor, EPA is extending the deadline for providing EPA with a good faith offer in response to our March 2, 2022 letter until June 17, 2022. EPA expects to provide an additional communication to the participating parties regarding the convening on or before that date.

Juan M. Fajardo
Assistant Regional Counsel
U.S. EPA Region 2
212 637-3132
